

Chronology update July 21, 2023.

4/13/23 NHTSA Counsel Notified Company that its stay on action expires on 4/14/23 and requests a new 573 Report be filed resulting in this filing with a disclaimer as to noncompliance; On or before 4/14/23 573 Report undated and revised per NHTSA staff request. Updated information included correction of reported population. The original population mistakenly overreported all MFG's production from December 2021 to June 6th, 2022, at 101,361. Should have only reported possible 48,045, which was the quantity produced by the MFG. Balance was produced by different MFG's. Additionally, purchase order record and lot quantity confirmed no other orders were produced. As noted above, on 6/6/22 all inventory and products in transit were 100% inspected before continuing distribution. The population was confirmed to the lot of 2,600.
