Details of the Recall

The frame on your vehicle may have been built with an unnecessary and unused stud. This frame stud may contact the fuel tank in a crash, which, in certain circumstances, can cause a fuel leak. A fuel leak in the presence of a competent ignition source may result in a fire, increasing the risk of occupant injury and/or injury to persons outside the vehicle.

FCA US will repair your vehicle free of charge (parts and labor). To do this, your dealer will inspect the frame and, if necessary, remove the frame stud and apply paint. The estimated repair time is 30 minutes. In addition, your dealer will require your vehicle for proper check-in, preparation, and check-out during your visit, which may require more time. Your time is important to us, so we recommend that you schedule a service appointment to minimize your inconvenience.

How do I schedule my **FREE** repair?

- ◆ Simply contact your Chrysler, Jeep®, Dodge or RAM dealer right away to schedule a service

appointment.

We apologize for any inconvenience, but are sincerely concerned about your safety. Thank you for your attention to this important matter.
