Title

BMW Safety Recall 23V-584: Receiver Audio Module (RAM)

Text

Potentially affected vehicles may not properly generate the audible safety belt warning signal for the driver and, therefore, may not meet a Federal requirement. If a driver depends on the warning signal to fasten their safety belt, then this condition could increase their risk of injury in a crash. Please note that this condition may also affect other seating positions.

Contact an authorized BMW center immediately to get your vehicle repaired for FREE. Dealer locator: bmwusa.com/dealer.

Advise all drivers of this important information.
