## Mandatory Product Improvement Trans/Air Dual Compressor Mount Ford F650 W/ Stabilizer bar

**Trans/Air Product:**

Trans/Air Mount Kit, Ford 6.7L F650, Dual Compressors  
Kit part numbers 4013775-01 & 4013775-02

**Symptoms:**

Operator may hear a bump/clunk of the compressors hitting the sway bar. This may lead to the breakage of the compressor mount which could lead to a potential loss of mode of power.

**Cause:**

Stabilizer bar contacting compressors

**Interim Action:**

Inspect Starcraft Ford F650 buses with 6.7l engine for optional front stabilizer / sway bar (picture below)

**Corrective Action:**

If bar is not present: No action needed  
If bar is present: Install new updated compressor mount kit.  
New compressor mount kit part numbers 4013848-01 (10cid) & 4013848-02 (13cid and 15cid)  
Up to 4hrs of labor.

**Authorization:**

Craig Smith, Warranty Manager

**Distribution:**

Specific Dealers

**For questions, please call Trans/Air Mfg. at 800-673-2446**

Craig Smith	Ext. 226	csmith@transairmfg.com	(Warranty Manager)
