**Problem Description:**

Thermo King Corp. (Thermo King) is recalling certain Tripac-3 Auxiliary Power Units (APU) with part number 800908, manufactured between April 8, 2024, and May 15, 2024. The APU mounting kits contain mounting bolts that are too short and can loosen.

AMENDED 573 REQUIRED.

Your company's program shall include a plan for reimbursing an owner or purchaser who incurred costs to obtain a remedy for the problem addressed by the recall within a reasonable time in advance of your company's notification of owners, purchasers and dealers, in accordance with § 573.13. Your company's plan may incorporate by reference a general reimbursement plan it previously submitted to NHTSA, together with information specific to the individual recall.
