24V-366

Subject: Incorrect Tires Installed/FMVSS 110,138

Dear Ms. Groshek:

This letter serves to acknowledge General Motors, LLC's notification to the National Highway Traffic Safety Administration (NHTSA) of a safety recall which will be conducted pursuant to Federal law for the product(s) listed below. Please review the following information to ensure that it conforms to your records as this information is being made available to the public. If the information does not agree with your records, please contact us immediately to discuss your concerns.

Makes/Models/Model Years:

CHEVROLET/COLORADO/2024

Mfr's Report Date: May 23, 2024

NHTSA Campaign Number: 24V-366

Components:

TIRES

Potential Number of Units Affected: 56

Problem Description:

General Motors, LLC (GM) is recalling certain 2024 Chevrolet Colorado vehicles. Incorrect tires may have been installed that do not match the tire label, and the tire pressure monitoring system (TPMS) may provide inaccurate information for the installed tires. As such, these vehicles fail to comply with the requirements of Federal Motor Vehicle Safety Standard numbers 110, "Tire Selection and Rims" and 138, "Tire Pressure Monitoring Systems."

Consequence:

A tire label that does not accurately reflect the installed tires may result in the installation of incorrectly sized tires. In addition, the TPMS may not warn the driver of a drop in tire pressure. Both of these scenarios can increase the risk of a crash.

Remedy:

Dealers will inspect and replace the tires as necessary, free of charge. Owner notification letters are expected to be mailed July 8, 2024. Owners may contact Chevrolet customer service at 1-800-222-1020. GM's number for this recall is N242444030.

Notes:

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.nhtsa.gov.

We have received GM's proposed owner notification letter and it is currently under review. You will be notified of any changes or concerns once our review is complete.

Please ensure the following requirements are met:

An identification and description of the risk to motor vehicle safety reasonably related to the defect or noncompliance (49 CFR 573.6 (c)(5)). All filings should state an increased risk of either a crash, injury or fire.

AMENDED 573 REQUIRED.

Please be reminded of the following requirements:

Copies of all notices, bulletins, dealer notifications, and other communications that relate to this recall, including a copy of the final owner notification letter and any subsequent owner follow-up notification letter(s), are required to be submitted to this office no later than 5 days after they are originally sent (if they are sent to more than one manufacturer, distributor, dealer, or purchaser/owner).

Under 49 U.S.C. § 30112(a), it is illegal for anyone, including a manufacturer, distributor, dealer, or retailer to sell an item of equipment or vehicle that fails to comply with all applicable Federal motor vehicle safety standards.

As stated in 49 U.S.C. § 30118(f), submission of eight consecutive quarterly reports followed by three annual reports is required. As described in 573.7, submission of the first of eight consecutive quarterly status reports is required within one month after the close of the calendar quarter in which notification to purchasers occurs. Therefore, the first quarterly report will be due on, or before, 30 days after the close of the calendar quarter. The first of three consecutive annual status reports will be due on, or before, 1 year after the eighth quarterly report was submitted.

General Motors, LLC's contact for this recall will be DeMara Magruder who may be reached by email at demara.magruder@dot.gov. We look forward to working with you.

Sincerely,

Alex Ansley
Chief, Recall Management Division
