Description of the Cause : The product was designed with an incorrect outlet.

Identification of Any Warning NR
that can Occur :**Involved Components :**

Component Name 1 : NR

Component Description : NR

Component Part Number : NR

Supplier Identification :

Component Manufacturer

Name : NR

Address : NR

NR

Country : NR

Chronology :

On or about January 26, 2024, Winnebago Design Engineering identified an incorrect outlet placed in the bath area. An investigation was initiated to determine scope of the affected product. The Product Safety Committee met on February 23, 2024 and decided to issue a voluntary recall.

Winnebago is not aware of any injuries as a result of the recall condition.

Description of Remedy :

Description of Remedy Program : Reimbursement request will fall under the general reimbursement plan on file with NHTSA

How Remedy Component Differs from Recalled Component : The remedy component will be a replacement outlet that provided GFCI protection.

Identify How/When Recall Condition was Corrected in Production : The recall condition was corrected in production by changing the previous outlet to one that offers GFCI protection.

Recall Schedule :

Description of Recall Schedule : The recall schedule will be within the 60 day requirement.

Planned Dealer Notification Date : MAR 08, 2024 - MAR 08, 2024

Planned Owner Notification Date : APR 26, 2024 - APR 26, 2024

* NR - Not Reported
