

Part 573 Safety Recall Report

24V-809

Manufacturer Name : Porsche Cars North America, Inc.**Submission Date :** OCT 28, 2024**NHTSA Recall No. :** 24V-809**Manufacturer Recall No. :** ARC4**Manufacturer Information :**

Manufacturer Name : Porsche Cars North America, Inc.

Address : One Porsche Drive

Atlanta GA 30354

Company phone : 1-800-767-7243

Population :

Number of potentially involved : 1,851

Estimated percentage with defect : 100 %

Vehicle Information :

Vehicle 1 : 2024-2024 Porsche 911

Vehicle Type : LIGHT VEHICLES

Body Style : 2-DOOR

Power Train : GAS

Descriptive Information : Affected vehicles have been identified through production records.

Production Dates : SEP 13, 2023 - OCT 21, 2024

VIN Range 1 : Begin : WPOAB2A95RS218363 End : WPOBB2A94RS234901 Not sequential

Vehicle 2 : 2024-2024 Porsche 718

Vehicle Type : LIGHT VEHICLES

Body Style : 2-DOOR

Power Train : GAS

Descriptive Information : Affected vehicles have been identified through production records.

Production Dates : OCT 24, 2023 - APR 02, 2024

VIN Range 1 : Begin : WPOAE2A82RK274209 End : WPOCE2A83RK240028 Not sequential**Description of Defect :**

Description of the Defect : There is a possibility that the center lock wheel fastening system within certain production range were manufactured out of specification and could fracture.

FMVSS 1 : NR

FMVSS 2 : NR

Description of the Safety Risk : Center lock fracture could potentially result in loss of a wheel or degradation in steering control. This could increase a risk of a crash.

Description of the Cause : The cause of the issue is currently under continued investigation.

Identification of Any Warning : If the center lock fractures, immediate perceptible vibration is likely.

that can Occur :

Involved Components :

Component Name 1 : Central lock wheel bolt

Component Description : The central locking wheel bolt secures the wheel to the vehicle.

Component Part Number : 992601119B

Supplier Identification :

Component Manufacturer

Name : Hirschvogel Holding GmbH

Address : Dr.-Manfred-Hirschvogel-Straße 6

Denklingen Foreign States 86920

Country : Germany

Chronology :

Between September and mid-Oct., 2024, Porsche became aware of several incidents attributable to center lock fractures.

While the cause remains under review, the subject components appeared to be from a single batch of out-of-specification components matched to vehicle production months Sept. 2023-Oct. 2024.

Although the cause remains under investigation, Porsche decided on Oct. 21st to conduct a safety recall and ask customers to stop use on the subject vehicles.

Description of Remedy :

Description of Remedy Program : Porsche will check the center lock wheel fastening system and replace any out-of-specification parts, if necessary.

The owner's letter will not include a statement about customer reimbursement for pre-notification remedies as all of the affected vehicles are still covered under Porsche New Car Limited Warranty.

How Remedy Component Differs from Recalled Component : Based on the available information, the subject components appeared to be from a single batch of out-of-specification components.

Identify How/When Recall Condition was Corrected in Production : At the current time, it is assumed that out-of-specification center lock was installed in vehicle production between September 2023 and October 2024.

Recall Schedule :

Description of Recall Schedule : Owners will be notified within 60 days of the filing of this report.

Planned Dealer Notification Date : OCT 29, 2024 - OCT 29, 2024

Planned Owner Notification Date : DEC 27, 2024 - DEC 27, 2024

* NR - Not Reported
