

New Safety Recall Advanced Communication – 20B

FCA US LLC (FCA US) has announced a safety recall on certain MOPAR Side Airbag Inflatable Curtain (SABIC) modules: Right Side Curtain Airbag 68222742AF, Left Side Curtain Airbag 68222743AF, intended for use on 2015 through 2019 model year (LD) Dodge Charger and 2015 through 2020 (LX) Chrysler 300 vehicles. Right Side Curtain Airbag 05108050AF, Left Side Curtain Airbag 05108049AF intended for use on 2011 through 2014 model year (LD) Dodge Charger and (LX) Chrysler 300 vehicles.

REASON FOR THIS SAFETY RECALL

Some SABIC modules may have been manufactured with an inflator that may rupture. A SABIC inflator rupture may result in compressed gas rapidly escaping from the inflator and material potentially being propelled into the vehicle. Material being propelled into an occupied vehicle, or in the direction of a person if the inflator is not installed in a vehicle, may cause injury.

SERVICE ACTION

FCA US will conduct a voluntary safety recall on all affected vehicles to replace both SABIC modules. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 2nd Quarter of 2024.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
