## **New Safety Recall Advanced Communication – 15B**

FCA US LLC (FCA US) has announced a safety recall on certain MOPAR Steering Column Control Modules 68351725AD, 68351726AD, intended for use on 2021-2024 (WL) Jeep Grand Cherokee/Grand Cherokee L vehicles. 68351728AD intended for use on 2021-2024 (WL) Jeep Grand Cherokee/Grand Cherokee L, and 2022-2024 (WS) Jeep® Wagoneer/Grand Wagoneer vehicles. 68545657AA, 68545658AA, intended for use on 2019-2023 (DT) Ram 1500 Pickup vehicles. 68599295AA, 68599297AA, 68599299AA, intended for use on 2018-2024 (JL) Jeep® Wrangler vehicles. 68599296AA, 68599298AA, intended for use on 2018-2024 (JL) Jeep® Wrangler and 2020-2024 (JT) Jeep® Gladiator vehicles. 68603040AA intended for use on 2017-2024 (RU) Chrysler Pacifica and Voyager vehicles.

### **REASON FOR THIS SAFETY RECALL**

Some of the above steering column control modules ("SCCM") may have been built with an insufficient weld between an internal flexible flat cable ("FFC") and busbar. The suspect parts may not allow a deployment signal from the Occupant Restraint Controller to reach the driver airbag module, preventing airbag deployment during these events. An airbag that does not deploy when intended may result in increased risk of injury to the driver in certain crashes.

The condition described above does not comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 571.208 requires driver's airbag deployment during certain crash events.

### **SERVICE ACTION**

FCA US will conduct a voluntary safety recall to inspect and, if necessary, replace the steering column control module. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 2nd Quarter of 2024.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
