**UPDATE**

**Safety Recall NHTSA No. 24T-001**

April 8, 2024

Dear Valued TWG Dealers and Distributors,

We appreciate your partnership with TWG and AMP Tires.

This letter updates you on the recall population of affected tires and provides a status update of our recall process.

**What is the condition?** The affected tires do not fully meet the snow tire label requirements of FMVSS 139. The alpine, or snow tire label, is a voluntary label that may only be applied to tires that satisfy ASTM F1805. Testing of these tires found that they do not fully meet the requirements of ASTM F1805. If these tires are operated in snow conditions similar to ASTM F1805, they may not provide sufficient traction increasing the risk of a crash.

**Affected tires:**

As previously communicated, all sizes of AMP Terrain Pro A/T, AMP Terrain Attack A/T, and AMP Terrain Attack R/T tires are affected.

**In addition to the original tire population identified in this recall, we are adding the Mud Terrain tires outlined below as they may have the alpine symbol mark on them and do not meet the ASTM F1805 standard.**

Items	DOT Range
All sizes of AMP Mud Terrain Tires	All production prior to 0120
PN 325-5022AMP/CM2	0224 to 0724

**If these tires do not have the alpine symbol mark, they are not included in the recall.**

**What are we asking you to do? We are asking you to immediately cease sales of all sizes of AMP Terrain Pro A/T, AMP Terrain Attack A/T, and AMP Terrain Attack R/T tires and the Mud Terrain tires above that have the alpine symbol.**

IT IS A VIOLATION OF FEDERAL LAW FOR A DEALER OR DISTRIBUTOR TO DELIVER A NEW OR USED TIRE COVERED BY THIS NOTIFICATION UNDER SALE OR LEASE UNTIL THE NONCOMPLIANCE IS REMEDIED.

**What we will do for owners of these recalled tires:** TWG is developing a remedy for the recalled tires. When the remedy is available, we will notify both you and the owners.

The Wheel Group is committed to work with you to quickly resolve this issue. We are ramping up fully compliant replacement stock as we speak and are actively shipping products.

**Please reach out to your TWG representative for special deals and to discuss next steps for any non-compliant tires you have in your inventory.**

We highly value your partnership and apologize for any inconvenience this may have caused.

Best Regards,

Dave Albert  
CEO The Wheel Group
