

## IMPORTANT SAFETY RECALL

### Tusk 2Track Adventure Rear Tire (150/70B-18; Part No. 2137740001)

May 10, 2024

**To:** Rocky Mountain ATV/MC, Inc. Dealers

This notice letter is being sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

#### **Description of defect or noncompliance and evaluation of the risk to motor vehicle safety:**

Rocky Mountain ATV/MC, Inc. (“RMATV”) has determined that on certain Tusk 2Track Adventure rear tires (150/70B-18; Part No. 2137740001). The tread knobs can experience chunking and potentially separate from the carcass over time. Due to a deviation in the manufacturing process, the tread of certain tires might not have been provided sufficient time to cure to the carcass during vulcanization. If a tire did not cure for sufficient time during the manufacturer’s vulcanization process, over time it could lead to chunking of the tread knobs during use. In that event, the handling or steering characteristics of the motorcycle could be affected. This could increase the risk of a crash.

You are receiving this letter because RMATV’s records indicate you may have received tires that are subject to this recall.

#### **HOW TO IDENTIFY IF YOU HAVE AN AFFECTED TIRE**

Affected tires are those with the following Tire Identification Numbers (TIN):

- DOT 038 MFFTR2 4323
- DOT 038 MFFTR2 4423
