

IMPORTANT SAFETY RECALL

**AUTOCAR, LLC ACX-2401 ACTT-2401
NHTSA RECALL NO. 24V080**

April 2024

TO: U.S. Distributors
Dealer Principals, Service Managers, Warranty Managers, Parts Managers

This notice is being sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Autocar, LLC has decided that a defect which relates to motor vehicle safety exists in 37, 2023 model year Xpeditor (ACX) and Xspotter (ACTT) chassis. The ACX chassis was manufactured October 31, 2023 with serial number 242483. The ACTT chassis were manufactured between February 8, 2023, and July 19, 2023, with non-sequential serial numbers in the range of 240631 through 244882. Accordingly, a recall to address this issue is being initiated effective April 5, 2024.

MODELS AFFECTED: Autocar Xpeditor (ACX) and Xspotter (ACTT) MY 2023

COMPONENTS AFFECTED: The steering gear may have been manufactured with fewer than required recirculating balls.

SAFETY DEFECTS AND POTENTIAL RISKS: A steering gear with fewer than the required number of recirculating balls may bind when loads are applied. In some cases, the balls may align on the same side of the gear's worm-shaft and concentrated loads may cause the gear's internal parts to fracture resulting in loss of vehicle steering. Loss of steering increases the likelihood of a crash.

REPAIR REQUIRED: The steering gear will be inspected and or replaced at no charge.

REPAIR AVAILABLE: VIN profiles in the Autocar Warranty System will be updated to show the open recall on April 5, 2024, and a spreadsheet of the affected VINs will be available in the Warranty system.

REMINDER: It is a violation of Federal law to sell or lease a vehicle covered by this recall notice unless the recall remedy has been completed. Substantial civil penalties apply to violations of this law.

If you have any questions or concerns, please contact the Autocar Warranty Department at warranty@autocartruck.com.

Sincerely,
AUTOCAR, LLC
