Subject: **New AGA Brake Pedal Release Tool *(for IB recall)**

As many of you may have noticed and experienced, there are ongoing delays in availability of the BMW/MINI Brake Pedal Release Tool - 83 30 2 409 646. With the urgency of the current IB Recall, many of you have either a) been waiting for the BMW tool to arrive OR b) justifiably turned to third-party online retailers to acquire their available substandard no-name knock-offs. Having tested these knockoffs firsthand, they have quite a few design issues/flaws that are not optimal and may hinder the proper execution of the required brake pedal release task.

With that said, BMW NA Technical Service - Special Tools is happy to announce that AGA Tools has produced AND has current availability of a similar tool that has had performance enhancements and functional improvements applied. The AGA tool can be found and ordered here:

<https://agatools.com/products/brake-pedal-release-tool>

IF you need one or more additional tools immediately, please refer to the currently available AGA tool via the link above. Additionally, I highly recommend that if you have one or more of the no-name knockoffs that you replace them with either the AGA tool(available now) or the BMW tool(currently delayed till late Nov/Dec.).

IMPORTANT: IF you fulfill your pedal release tool needs with the available AGA tool and you still have open order(s) for the BMW tool, be sure to cancel your orders in the BMW Parts Ordering System(ATLAS) for the BMW tool so you don't end up with double the amount of tools you actually need.

If you have any questions regarding this message, please email me at: bmwtools@bmwna.com

Sincerely,

Technical Service - Special Tools
