Subject: **New MINI Recall 24V-104: Integrated Brake System**

Dear Valued Dealer Partners,

Due to an identified potential issue with the Integrated Brake System, the majority of your on the ground and arriving inventory will go on a delivery Stop Sale this week. We currently do not have a solution to remedy the issue and remove the Stop Sale. We are aware of the significant impact this is having to your business and ensure you that every effort is being taken to develop a remedy to release these vehicles quickly.

Given the impact on your daily business we will continue to provide frequent updates on the topic as new information becomes available.

We appreciate your patience and partnership.

Regards,

MINI USA
