Subject: **Reminder – Integrated Brake In-Car/In-app Customer Notification**

We have identified some customers may continue to receive the In-Car/In-App Communication (M34 03 24) even after having their Integrated Brake Recall completed. This is due to 2 separate matters:

The warranty claims for both the Integrated Brake Recall (M34 01 24 and/or M34 02 24) and Customer In-Car/In-App Communication (M34 03 24) have not been submitted yet.

Or

The message has not been acknowledged (by clicking the “Find out more” button) at least once from the customer.

Please ensure to submit your warranty claims for both the Integrated Brake Recall (M34 01 24 and/or M34 02 24) and Customer In-Car/In-App Communication (M34 03 24) campaigns as soon as possible upon completion. This will remove the daily In-Car/In-App communications preventing the customer from continuing to be notified after the campaign has been completed. Only the warranty claims will stop the notification, not the replacement of the part in the vehicle.

Thank you for your continued assistance.

Sincerely,

Technical Service
