Subject: **Update - BMW Integrated Brake Delivery Stops/Recalls**

We have recently published two Bulletins with the Remedy for vehicles that were originally affected by STOP224983 - Integrated Braking System.

The VIN list is divided into two separate Bulletins with unique Defect Codes and Repair Processes. Additionally, the VIN lists for each have been updated recently, with some vehicles added and some removed. Please re-check your Dealer Inventory to confirm which vehicles may be affected and the appropriate Bulletin to follow for those vehicles. Vehicles which are no longer affected (show no open campaigns) may be delivered.

With the two new bulletins below now posted, we have removed Bulletin B34 04 23 RECALL 24V-104: INTEGRATED BRAKE SYSTEM (IB).

Initial parts supply will be auto shipped to your Centers with guidance as to which vehicles should receive the repair, in lieu of turning vehicles green in ROSS. Please do not submit a Recall or Blocked Parts IDS Ticket. The Parts Matrix has been updated with additional information.

B34 02 24 Recall 24V-104: Integrated Braking System

- The Remedy for this Bulletin applies to vehicles that have greater than 165 Miles.
- The Mandatory Training Video OLST2402 - Integrated Brake System Recall Repair Procedure is available on TMSi [here](#).
- This Bulletin will be updated in the future as additional procedures are developed for vehicles with less than 165 Miles.

B34 03 24 Delivery Stop: Programming Control Unit Integrated Braking System (IB)

- **This is a much smaller number of vehicles.** These vehicles have an updated IB Module in the vehicle and only require programming.
- The Remedy for this Delivery Stop is available and outlined in the Bulletin.
- Due to system processing times, vehicles affected by this stop will not show green until tomorrow, but the programming can be performed immediately. Should you need to deliver a vehicle today, please use the RDR override function with the RO Number and the Date of Repair.

If vehicles have any other open Campaigns, they must be completed prior to delivery to the customer. Thank you for your patience and understanding as we work through these delivery stops and campaigns.

Sincerely,

Technical Service

Subject: **Update - MINI Integrated Brake Recall**

We have recently published a Bulletin with the Remedy for vehicles affected by 24V-104 Integrated Braking System (M34 01 24).

Initial parts supply will be auto shipped to your Dealerships with guidance as to which vehicles should receive the repair, in lieu of turning vehicles green in ROSS. Please do not submit a Recall or Blocked Parts IDS Ticket. The Parts Matrix has been updated with additional information.

M34 01 24 Recall 24V-104: Integrated Braking System

- The Remedy for this Bulletin applies to vehicles that have greater than 165 Miles.
- The Mandatory Training Video OLST2402 - Integrated Brake System Recall Repair Procedure is available on TMSi [here](#).
- This Bulletin will be updated in the future as additional procedures are developed for vehicles with less than 165 Miles.

If vehicles have any other open Campaigns, they must be completed prior to delivery to the customer. Thank you for your patience and understanding as we work through this campaign.

Sincerely,

Technical Service
