RECALL 24V-104: INTEGRATED BRAKING SYSTEM

What's New:

- Model Year range updated
- Situation updated
- Recall Notice updated
- FAQ added

MODEL

E-Series	Model Description
F65	MINI Cooper S Hardtop 4 Door
F66	MINI Cooper S Hardtop 2 Door
U25	MINI Countryman

AFFECTED VEHICLES

Vehicles which require this campaign to be completed will show it as “Open” when checked either in AIR, AWP, Campaign Summary or Warranty Vehicle Inquiry.

Please make sure you check your dealer inventory as soon as possible. As of August 9, 2024, you can see a list of affected vehicles in Inventory Campaign Details (ICD) under ROSS.

SITUATION

BMW AG is conducting a Voluntary Safety Recall (effective August 8, 2024) on certain Model Year 2025 MINI vehicles.

The Integrated Brake (IB) module may not function according to specifications. If this happens, a warning lamp and message will be displayed in the instrument cluster. There will be a reduction in power assist braking, which could lead to an extended stopping distance and increase the risk of a crash. The Antilock Brake System (ABS) and Dynamic Stability Control (DSC) system may also not function, which could affect vehicle handling and control. Please note that higher pedal force may be required.

The Recall Notice and FAQ have been attached for further information.

The bulletin will be updated when additional information becomes available.

SAFETY RECALL NOTICE

To: All Center Operators, Sales Managers, Service Managers, Parts Managers and Warranty Processors

RE: Recall 24V-104: Integrated Braking System – M34 01 24

BMW AG is conducting a Voluntary Safety Recall (effective August 8, 2024) on certain Model Year 2025 MINI vehicles.

Please be reminded that it is a violation of federal law (The Safety Act) for you to sell, lease or deliver any new motor vehicle covered by this notification until the recall repair has been performed. This means that Centers may not legally deliver new motor vehicles to consumers until they are fixed or use/sell replacement equipment/parts subject to this recall. Note also that substantial civil penalties apply to violations of the Safety Act.

Also, you should not sell, lease or deliver any Certified Pre-Owned or used vehicles subject to a safety recall until the repair is completed.

Please follow any special instructions that we provide to you for the return or disposition of recall parts.

We appreciate all your assistance with this Recall.

Safety Recall
24V-104
Integrated Brake (IB)
Model Year 2025
MINI Hardtop Cooper (2 Door, 4 Door)
MINI Cooper Countryman
Issue Date: 08/09/2024

Q1. Which MINI models in the US are potentially affected by this Safety Recall?

Certain Model Year 2025 MINI Hardtop Cooper (2 Door, 4 Door), and MINI Cooper Countryman models, in the US are potentially affected.

Q2. What is the specific issue?

The Integrated Brake (IB) module may not function according to specifications. If this happens, a warning lamp and message will be displayed in the instrument cluster. There will be a reduction in power assist braking, which could lead to an extended stopping distance and increase the risk of a crash. The Antilock Brake System (ABS) and Dynamic Stability Control (DSC) system may also not function, which could affect vehicle handling and control. Please note that higher pedal force may be required.

However, fully mechanical braking is not affected. If the IB module is not functioning properly, the parking (emergency) brake will be automatically activated to aid in braking performance. Also, the emergency function of the brake force distribution system remains available to help maintain vehicle stability and control.

If you notice any of these conditions, your vehicle may be experiencing this issue. Please drive carefully, and avoid abrupt braking as much as possible. Please contact an authorized MINI dealer as soon as possible to have the vehicle remedied.

If you are not the only driver of this vehicle, please advise all other drivers and passengers of this important information.

Q3. Why are other models / vehicles not included in this Safety Recall?

Other models have an Integrated Brake (IB) system that was produced to specifications by the supplier.

Q4. Can I continue to drive my vehicle?

Yes. However, when you are notified by MINI of this Safety Recall that a remedy is available, please contact an authorized MINI dealer to schedule an appointment as soon as possible. For the latest updates to this Safety Recall, please visit miniusa.com/recall. **If you are not the only driver of this vehicle, please advise all other drivers of this important information.**

Q5. How did MINI become aware of the issue?

MINI became aware of the issue through its quality control procedures.

Q6. How will I be informed of this Safety Recall?

Owners of potentially affected vehicles will be notified via First Class mail advising them of this Safety Recall. When parts become available, they will receive another letter, requesting that they schedule an appointment with an authorized MINI dealer as soon as possible to have this Safety Recall performed. For the latest updates to this Safety Recall, please visit miniusa.com/recall.

To ensure MINI has the most up-to-date contact and vehicle information, owners should register their vehicle at miniusa.com/ol. Registration is free and will give them access to other information specific for their MINI vehicle. Alternatively, owners can visit miniusa.com/recall and click on “**Manage recall notices and contact information**”.

Q7. How will my vehicle be remedied?

When the remedy is available, potentially affected vehicles will have the Integrated Brake (IB) system replaced for free which should take several hours.

Q8. Do I have to wait for MINI to contact me to have the remedy performed?

Yes. We are in the process of implementing this Safety Recall to ensure that the necessary parts, tools, and procedures are available. For the latest updates to this recall, please visit miniusa.com/recall.
