<b>Subject</b>	Fuel Pump Safety Recall VIN Reporting Incorrect						

Dear Honda Dealer:

After internal review of our recent Fuel Pump Safety Recall announcements, we discovered that there was an issue with incorrect VINs being assigned to the campaigns within our system. This created inaccurate information being reported in the Unit Information searches and eResponsibility resources. **As of 2/24/2024** all potentially affected VINs should be showing correctly in our reporting.

Please closely check each VIN before completing any work on a unit to verify campaign status.

We apologize for the inconvenience and confusion that this may have caused, and thank you for your patience and continued support.

Sincerely,

**American Honda Motor Co., Inc.**

Powersports Division
