INTERIM NOTICE

ATTENTION: ALL DEALER PRINCIPALS

This is an interim notice as we work on the remedy parts.

Kia America, Inc., pursuant to the National Traffic and Motor Vehicle Safety Act, is conducting a Safety Recall Campaign on certain 2020 MY Telluride vehicles manufactured from January 9, 2019 through November 18, 2019, equipped with halogen headlamp assemblies, that have not already had both headlamp assemblies replaced under warranty with the improved remedy parts.

Over time, the high beam shield gear mechanism in each headlamp assembly can independently become damaged due to heat generated from the halogen bulb. If this occurs, the high beam(s) is no longer operable. The loss of high beams can reduce visibility in certain areas with limited surrounding lighting, thereby increasing the risk of a crash. Customers may experience reduced high beam visibility from either the left or right side due to an inoperable high beam. Please note this condition does NOT affect the operation of the low beams.

When the remedy is available, dealers will inspect the high beam shield gear mechanism and either apply a clip to secure the shield gear to the shaft or replace the headlamp assembly.

Your Service Manager was sent a copy of the interim owner notification letter and a Q&A guide for recall questions both of which describe the issue and information on how to access the list of affected vehicles. Kia will start mailing interim notices to the affected vehicle owners beginning on **April 25, 2024**. A follow-up notice will be mailed once the remedy becomes available.
