

## IMPORTANT SAFETY RECALL

**\*\* PENDING RECALL NOTICE \*\***

**NHTSA Safety Recall 24V-172**

March 08, 2024

### **Reason For This Recall**

Winnebago Motorhomes has decided that a defect related to motor vehicle safety exists on certain Winnebago Motorhomes.

<b>Models Affected:</b>	<b>Model Description</b>	<b>Model Years</b>
	<b>Sunstar</b>	<b>2023</b>

Certain Sunstar Motorhomes were built on a 22,000 GVW chassis w/ 235/80R tires and 22.5 x 7.5 Rims - 90PSI. These motorhomes received a label that stated 18,000 GVWR chassis w/ 245/70R tires and 19.5 x 6.75 Rims - 82PSI.

Using an incorrect tire size can increase the risk of a crash.

### **Service Action**

Winnebago will conduct a voluntary safety recall to address the Certification Label, however the remedy is not currently available. Dealers will be notified through established communication methods once a remedy is available.

In the interim, all systems in the coach can be functionally demonstrated.

We sincerely apologize for this inconvenience and want to assure you we are working diligently to remedy this situation.

### **Notice**

**It is a violation of Federal Law for a dealer to sell or lease any new vehicles in dealer inventory covered by this notification until the vehicle has been repaired.**

Thank you for your continued partnership!
