

New Safety Recall Advanced Communication – 19B

FCA US LLC (FCA US) has announced a safety recall on certain 2018 through 2021 model year (LD) Dodge Charger and (LX) Chrysler 300 vehicles.

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built with a Side Airbag Inflatable Curtain (SABIC) inflator that may rupture. A SABIC inflator rupture may result in compressed gas rapidly escaping from the inflator and material potentially being propelled into the vehicle. Material being propelled into an occupied vehicle may cause injury.

SERVICE ACTION

FCA US will conduct a voluntary safety recall on all affected vehicles to replace both SABIC modules. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 2nd Quarter of 2024.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
