SAFETY RECALL ALERT

Subject: Safety Recall SC0461 Methane Detector Inoperative
Recall Number: SRA-M461
Date: March 28, 2024
Applicable Markets: U.S. Canada Export

Description

Certain natural gas vehicles which were ordered with a methane detector are missing a fuse, causing the methane detector to not operate.

Vehicles will be recalled and the fuse will be installed to ensure the methane detector functions properly.

Model and Model Years Affected

- Certain 2024 and 2025 Mack LR vehicles manufactured June 14, 2023 through February 20, 2024.

Vehicle Quantities

- 137 vehicles (106 US, 31 Canada)

Dealer Responsibilities

- The National Traffic and Motor Vehicle Safety Act and Canadian Motor Vehicle Safety Act require dealers to ensure that all new and used vehicles are free of safety defects and comply with all relevant safety standards at the time of delivery to the consumer.
- Dealers should make their personnel aware of the safety recall. In the event that a dealer has a vehicle included in the safety recall in their inventory to be sold, the condition must be corrected before releasing it to a customer.

Notification Release Schedule

- Vehicle list will be posted on the Trucks Dealer Portal March 28, 2024.
- Owner notification letters will be released on or before May 24, 2024.

Contact

If you have questions or concerns about this recall, contact the Regulatory Affairs Department at vtna.regulatoryaffairs@volvo.com.
