

## **New Safety Recall Advanced Communication – 24B**

FCA US LLC (FCA US) has announced a safety recall on certain 2022 Model Year (KL) Jeep® Cherokee vehicles.

VINs identified as being involved in this campaign are currently live and searchable.  
**Stop sale is in effect for the above-identified vehicles.**

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

**IMPORTANT:** Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$27,168 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

### **REASON FOR THIS SAFETY RECALL**

Some of the above vehicles may have been built with a steering column control module (SCCM) detent spring that may prevent the turn signal lever from latching or staying latched for right hand turns. Suspect vehicles may have a turn signal lever assembly that self-cancels without steering wheel rotation or manual input. **A turn signal unit that inadvertently self-cancels may result in surrounding drivers not receiving indication of the intent to change vehicle direction, which can cause a vehicle crash without prior warning.**

The condition described above does not comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 108 S9.1.1 which requires that "The turn signal operating unit [...] must be self-canceling by steering wheel rotation and capable of cancellation by a manually operated control."

### **SERVICE ACTION**

FCA US will conduct a voluntary safety recall to inspect and, if necessary, replace the steering column control module. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in the 2nd Quarter of 2024.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
