AUDI DEALER COMMUNICATION

Repair Available – Compliance Recall 941L / Headlamp Control Unit Software

This notice is for: All Dealer Personnel

Date: May 28, 2024

Issue: Affected vehicles were equipped with headlight control module software intended for the EU market that may not comply with U.S. and Canada regulatory requirements. The software exhibits ECE-compliant lighting behavior intended for other markets that affects the parking lamp performance when the headlights are turned on and turn signals are activated. There is no loss of low beam, high beam, turn signal, or hazard functionality.

Vehicles with unintended parking lamp performance during turn signal operation may have reduced conspicuity to other vehicles, which may increase the risk of crash.
