

IMPORTANT SAFETY RECALL

NHTSA Recall – 24V-363

KME Internal Recall No. 24003K

Dear Dealer or Service Manager:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

KME has decided that a defect which relates to motor vehicle safety exists in certain model year 2022-2023 Predator model Emergency Response Fire Apparatus trucks.

On the affected vehicles, installation of an incorrect relay valve may prevent the park brake from engaging. As such, these vehicles may fail to comply with the requirements of Federal Motor Vehicle Safety Standard (FMVSS) number 121, "Air Brake Systems".

If this condition exists, the park brake may not be applied, resulting in inadvertent vehicle movement and possible injury. The issue could occur without warning.

Dealers will inspect the relay valve to determine if the correct valve was installed and replace, if necessary.

We will contact all owners of these units that are affected by this recall. They will be directed to the appropriate dealer for repair. There is no cost to the vehicle owner for the recall remedy.

IMPORTANT: Some vehicles may still be in dealer inventory. Federal law requires you to complete the recall remedy on such vehicles before delivery to the retail customer.

SCHEDULING THE WORK:
