## **IMPORTANT SAFETY RECALL**

This notice applies to your vehicle, [VIN]

NHTSA Recall No. 24V-403

14K Deck Over Recall Dealer Notification

Dealer Name:

Timpte has decided that a safety defect exists in certain 14k deck over models. Accordingly, a recall to address this issue is being initiated effective June 5th, 2024.

### **What the Recall is Addressing**

The 14k deck over trailers utilizes a spring-loaded rotating ramp system. The ramps are held in place by metal tubing that is secured on both sides by a bolt and nut. In some instances, during the installation process the lock nut was not engaged all the way and has been found to fall off or the bolt to fall out of the pipe.

### **What will be the Remedy for trailers on your lot?**

Dealers involved in the recall will be sent new hardware which will include 4 new bolts and 4 new locking nuts per trailer. Proper installation instructions will also be provided to ensure the locking nuts are engaged fully. For any time inspecting and correcting the trailer to operating condition, Timpte will reimburse \$25.00 per trailer. Please contact Timpte warranty once the trailer(s) have been updated so we are able to remove the trailer or trailers from the recall list.

### **What is needed from the dealer if any 14k deck over trailer has already been sold?**

Timpte will be sending recall notification letters to all owners if they have been sold from your dealer lot. Timpte warranty is requesting you to provide contact information of those owners. Please call or email Timpte Warranty with the information below in the contact section.

### **Who to Contact at Timpte?**
