Date: June 5, 2023

Subject: Notification of Noncompliance Recall Campaign TSB70062404 – Cluster Telltales

Fisker Inc. (Fisker) has identified a noncompliance with the Federal Motor Vehicle Safety Standards (FMVSS) 101 (Controls and displays), 135 (Light Vehicle Brake Systems), 138 (Tire Pressure Monitoring Systems), and 208 (Occupant Crash Protection Telltale Illumination), which mandate the illumination of certain gauges and telltales in the cluster display. As a result, Fisker is conducting a Voluntary Non-Compliance Recall Campaign effective May 29, 2024, on all MY 2023 Fisker Ocean vehicles manufactured for the U.S.A and Canada markets.

The current proposed remedy is the release of the over the air new software operating system (OS) 2.1 which will update all cluster telltales to comply with the relevant FMVSS standards.

Once the vehicles in your inventory are updated with the new OS 2.1 software, they then can be released for sale.

On or before June 30, 2024, vehicle owners will be notified with a notification recall letter.
