

IMPORTANT SAFETY RECALL

NHTSA Recall – 24V-453

Spartan Internal Recall No. 24009

Dear Dealer or Service Manager:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Spartan Fire, LLC has decided that certain model year 2017 Gladiator model emergency response chassis cab vehicles may fail to conform to Federal Motor Vehicle Safety Standard No. 121, "Air Brake Systems."

On the affected vehicles, the service brake application timing exceeds the 0.45 timing requirement identified in S5.3.3.1(a) of FMVSS 12.

If this condition exists, the delayed service brake application may result in increased stopping distance, which could increase the risk of a crash. The issue may occur without warning.

Dealers will replace the quick release valve.

We will contact all owners of these units that are affected by this recall. They will be directed to the appropriate dealer for repair. There is no cost to the vehicle owner for the recall remedy.

IMPORTANT: Some vehicles may still be in dealer inventory. Federal law requires you to complete the recall remedy on such vehicles before delivery to the retail customer.
