# AUDI DEALER COMMUNICATION

## Repair Available – Safety Recall 47UP / Front Axle Brake Hoses

**This notice is for:** All Dealer Personnel

**Date:** July 29, 2024

**Issue:** It is possible that, over time, tears can develop in the front axle brake hoses. If this happens, a brake fluid leak and eventually brake circuit failure could occur. A failed brake circuit can cause longer brake pedal travel, reduced vehicle braking capability, and longer stopping distances, increasing the risk of a crash.

**Precautions:** If the recall condition is present in the vehicle, brake pedal travel may be extended, and a warning message will appear in the vehicle display due to the reduced quantity of brake fluid. Customers experiencing this condition are advised to contact their authorized Audi dealer to have the vehicle diagnosed.

- Repair:**
