IMPORTANT SAFETY RECALL:

July 2024

This notice applies to your REV Ambulance Group Orlando, Inc. (REVO) Ambulance unit with the VIN number(s):

REVO Ambulance vendor component issue, NHTSA recall number: **24V468**

Dear REV Ambulance Dealer,

This notice is being sent to you in accordance with the National Highway Traffic and Motor Vehicle Safety Act. Rev Ambulance Group Orlando, Inc. has decided that a defect which relates to motor vehicle safety exists in certain 2019-2024 Type I, Type IX vehicles equipped with Outriggers.

WHAT IS BEING RECALLED?

In the affected products, the outriggers bolts could be loose since the specified torque value was not applied to the fasteners.

WHY IS IT BEING RECALLED?

If all outrigger bolts are loose in a unit, there is a critical safety concern as the module box, if involved in an accident, could detach from the chassis, posing a significant risk of damage and injury. Additionally, if any outrigger bolts are loose, it may exert undue stress on the remaining outriggers, potentially leading to outrigger failure.
