

81B Label Availability Update

For safety recall 81B, labels are now available for 2023–2024 (GU) Alfa Romeo Stelvio vehicles equipped with 255/40R21 All Season Tires (sales code TPQ) and without spare tire (sales code TBT). These new labels are classified under label version #17. Please reference the latest publication of the 81B dealer instructions.

The version #17 labels are available to order from the DealerCONNECT eStore. Unlike the initial launch, labels will NOT be automatically sent to dealers based on assigned unsold vehicles.

Any vehicles that were previously allocated a version #8 label will require a new version #17 label to close the recall.
