

## I-24-07 Safety Recall DEX Alert and STOP Post

### **DEX/STOP Alert**

**Group:** Alerts / Recall

**Start Date:** 7/26/2024

**Removal Date:** 10/26/2024

**Title:** Stop Sale I-24-07 Released

### **Alert Text:**

Indian Motorcycle has determined that some Model Year 2024 Chieftain, Roadmaster, Springfield, Challenger, and Pursuit motorcycles may have been produced with a rear suspension pushrod, which does not meet design specifications. The rear suspension pushrod may buckle under load, which can result in pinching the main chassis harness, damage to the coolant reservoir, damage to the rear tire, or the rear of the motorcycle bottoming out under load, increasing the risk of a crash and serious injury.

Indian Motorcycle is currently evaluating a repair procedure for this concern and will provide an update to dealers in the coming weeks
