SUBJECT: SAFETY RECALL NOTICE – STOP DELIVERY: F1008

On **July 31, 2024**, Daimler Truck North America (DTNA) filed a Defect Information Report (DIR) with the National Highway Traffic Safety Administration (NHTSA) and/or a Defect Information Notice (DIN) with Transport Canada (TC) informing the agencies of our intent to conduct a voluntary safety recall.

It is a violation of Federal law for a dealer or distributor to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied. **Some of the vehicles subject to this "Stop Delivery Notice" may be in your *new* vehicle inventory.** Until further instructions are available, ***new* vehicles subject to this "Stop Delivery Notice" must be held and not be delivered to customers.**

DTNA strongly recommends that dealers and distributors remedy Recalls before selling used vehicles. For any used vehicle with an open recall not remedied before sale, DTNA requires that the dealer or distributor notify prospective buyers of the open recall.

Please ensure that registration information on vehicles subject to this recall is up to date to facilitate accurate owner notification.

Affected Vehicles in F1008:

Make	Model	Model Yr. Start	Model Yr. End	Prod. Start Date	Prod. End Date
Thomas Built Buses	SAF-T-LINER C2 Non-School Bus	2025	2025	10/17/2023	01/16/2024
Thomas Built Buses	SAF-T-LINER C2 School Bus	2024	2025	10/01/2023	06/17/2024
Thomas Built Buses	SAF-T-LINER C2 JOULEY School Bus	2024	2025	10/18/2023	03/14/2024

Problem:

The affected vehicles are equipped with factory installed air conditioning systems where the electrical ground cable may be loose or improperly installed.

If the A/C electrical ground cable is loose or improperly installed, when the A/C is in use, it may lead to excessive heat buildup at the electrical connection which can increase the risk of a vehicle fire.

Air conditioner may not work or work intermittently.

Solution:

DTNA will inspect the A/C electrical ground cable on the affected vehicles. If the electrical ground cable is found to be loose or improperly installed, it will be properly fastened or reinstalled with sufficient torque. Repairs will be performed free of charge by Daimler Truck North America authorized service facilities. Details of the reimbursement plan will be included in the owner's notification letter. Owners are directed to seek reimbursement through authorized dealers.

Owner Notification Mailing Schedule: 09/29/2024
