

New Safety Recall Advanced Communication – 38B

FCA US LLC (FCA US) has announced a safety recall on certain 2023 model year (LA) Dodge Challenger vehicles equipped with Rear 60/40 Folding Seat (sales code CFN).

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built with a misaligned left rear seat back striker that may prevent the seat back from latching. If the seat back is not locked in an upright position, there is an increased risk of injury to the occupant of the seat or to any occupant in the vehicle from unrestrained cargo in a crash.

The condition described above does not comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 571.207 S4.3 requires that "a hinged or folding occupant seat or occupant seat back shall [...] Be equipped with a self-locking device for restraining the hinged or folding seat or seat back." Suspect vehicles with a misaligned striker may not self-lock as required.

SERVICE ACTION

FCA US will conduct a voluntary safety recall on all affected vehicles to inspect and, if necessary, adjust the striker. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 3rd Quarter of 2024.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
