Model Year / Vehicle Affected: 2022-2023 Endera School Bus Vehicles**

To: All U.S. Endera Dealer Principals, General Managers, Sales Managers, Service Managers, Parts Managers, and Warranty Administrators.

On July 19, 2024, Endera Motors LLC (Endera) filed a Non-compliance Information Report (NCIR) with the National Highway Traffic Safety Administration (NHTSA) reporting to the agency 18 vehicles specifically identified as 2022 through 2023 model year distributed and sold Endera School Bus vehicles may not conform to requirements of FMVSS 217 School Bus Emergency Exits and Window Retention and Release.

1. Description of the Condition:

Endera has determined that certain 2022-2023 Endera School Bus do not comply with the positive door opening and locking requirement specified by 571.217.5.4.2.1.3(i). The rear emergency exit door was not equipped with a positive door locking device that bears the total weight of the door. The door may close unexpectedly, under its own weight, and could cause an injury to a passenger during egress.

2. Remedy:

Dealers are instructed to install a new locking strut that is compliant. A vehicle warranty will cover the costs if the warranty is still active. If the warranty is not active, Endera will cover the costs. Reference the Service Bulletin: TSB – 24-1007

3. Customer Notification:

Endera does not have owner contact information and requests that the dealers provide owner contact information based on sales contract and registration data. Please provide the information listed for each VIN on page 3:
