

VOLKSWAGEN DEALER COMMUNICATION

Repair Available – Safety Recall 57J9 / Door Handles

This notice is for: All Dealer Personnel

Date: December 18, 2024

Issue: The affected vehicles may have been built with door handles that do not meet the factory specifications for protection against water entry. Water entry into the printed circuit board can lead to malfunctions causing an “open command” to the door lock. An open door on a moving vehicle increases the risk of injury.

Precautions If the recall condition is present in the vehicle, occupants may notice an audible clicking noise (similar to the sound of a vehicle door being locked/unlocked). Should this occur, customers are advised to contact an authorized Volkswagen dealer without delay to have the vehicle inspected.
