## **ATTENTION: ALL DEALER PRINCIPALS**

Kia America, Inc., pursuant to the National Traffic and Motor Vehicle Safety Act, is conducting a Safety Recall Campaign regarding the Remote Smart Parking Assist (RSPA) feature on certain 2024 MY EV9 GT-Line and Land vehicles manufactured from September 25, 2023 through May 28, 2024.

The subject vehicles are equipped with a feature called Remote Smart Parking Assist (RSPA). RSPA allows a driver to remotely move the vehicle forward or reverse by pressing and holding a button on the key fob. Due to an error with the Integrated Electronic Brake (IEB) software, repeated RSPA stops at or less than approximately 2 mph may result in the application of insufficient brake pressure. Insufficient brake pressure can result in extended stopping distances, thereby increasing the risk of injury to a pedestrian.

Dealers will be instructed to update the IEB software with improved logic to apply high brake pressure in all RSPA braking conditions.

Your Service Manager was sent a copy of the owner notification letter and a Q&A guide for recall questions both of which describe the issue and information on how to access the list of affected vehicles. Kia will start mailing notices to the affected vehicle owners beginning on **October 4, 2024**.

### **What Should You Do?**

Please make certain the appropriate personnel in your dealership are familiar with the details of this recall to ensure proper responses to customer inquiries and requests to have the recall performed on their vehicles.

**NHTSA ADVISORY: It is a violation of Federal law for a dealer to deliver a new motor vehicle covered by this notification under a sale or lease until the defect is remedied.**
