In the course of continuous product monitoring and internal tests, Automobili Lamborghini S.p.A. has determined that a non-compliance that relates to motor vehicle safety exists in certain Huracan EVO Spyder model year 2024.

In the affected vehicles, on the front structural member assembly, a bracket which is relevant for crash protection according to FMVSS208 criteria "Paragraph S5.1.2. Unbelted test", may have been mounted on the wrong side of the vehicle. As such, these vehicles fail to meet the requirements of Federal Motor Vehicle Safety Standard (FMVSS) number 208, "Occupant Crash Protection". In the event of a crash, an incorrectly installed frame bracket may not provide adequate protection to an unbelted passenger, increasing the risk of injury.

For the reasons listed above, Automobili Lamborghini decided to launch a non-compliance recall campaign to rework the involved cars.

This campaign is now available in LIASS.

**IMPORTANT REMINDER: VEHICLES AFFECTED BY SAFETY & COMPLIANCE  
RECALLS**

**New Vehicles in Dealer Inventory:** It is a violation of federal law for a dealer to deliver a new motor vehicle or any new or used item of motor vehicle equipment (including a tire) covered by this notification under a sale or lease until the defect or noncompliance is remedied. By law, dealers must correct, prior to delivery for sale or lease, any vehicle that fails to comply with an applicable Federal Motor Vehicle Safety Standard or that contains a defect relating to motor vehicle safety.

**Pre-Owned Vehicles in Dealer Inventory:** Dealers should not deliver any pre-owned vehicles in their inventory which are involved in a safety or compliance recall until the defect has been remedied.

Ensure all relevant dealership personnel are aware of this notice so they are able to address customer questions. Owners of affected cars will be notified in writing.

For further information, please do not hesitate to contact your responsible Area Manager.

Yours sincerely,
