

New Safety Recall Advanced Communication – B7B

FCA US LLC (FCA US) has announced a safety recall on certain 2024 Model Year (GG) Dodge Hornet and 2024 through 2025 Model Year (GC) Alfa Romeo Tonale vehicles.

VINs identified as being involved in this campaign are currently live and searchable.
Stop sale is in effect for the above-identified vehicles.

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

IMPORTANT: Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$27,168 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

REASON FOR THIS SAFETY RECALL

Some of the above vehicles may have been built with a brake pedal assembly that may collapse while braking. A brake pedal that collapses while driving prevents the driver from being able to activate the service brakes which can cause a vehicle crash without prior warning.

SERVICE ACTION

FCA US will conduct a voluntary safety recall on all affected vehicles. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
