**** Campaign Summary ****

Nissan has notified the National Highway Traffic Safety Administration (NHTSA) that it is issuing a Voluntary Safety Recall Campaign on certain model year 2022-2024 Nissan Z vehicles identified in Service Comm and DBS National Service History.

On affected Z vehicles, the right-hand pedestrian detection sensor connectors were reversed in the front bumper harness. In this condition, the pop-up engine hood may not operate as designed in the event of certain pedestrian collisions, potentially increasing the risk of injury.

Your Nissan dealer will replace the front bumper harness with a countermeasure part.

This includes vehicles purchased from private parties or presented by transient (tourist) owners and vehicles in new vehicle inventory.
