Recall Campaign Initial Notification			November 1, 2024
Campaign No. :	NHTSA ID	Campaign Desc. :	Update Communication Module Software
TBA	24V807	24P2195432	
<p>This is to notify you of the new Recall Campaign to update the communication module software on 21 Model Year (“MY”) 2021 S-Class (223 platform) vehicles. The recall campaign will be visible on the www.NHTSA.gov website and may generate questions from customers. Affected VINs will be flagged in VMI as “PENDING” on November 1, 2024.</p>			
Background			
Issue	Mercedes-Benz AG, the manufacturer of Mercedes-Benz vehicles, has determined that on certain MY 2021 S-Class (223 platform) vehicles, the communication module might not meet current production specifications. Under certain conditions, an automatic or manual emergency call might not be successful. Additionally, the data transfer, such as the vehicle position, might be restricted. In the event of an accident, first responders might not be directed to the vehicle location, which could increase the consequences of the accident.		
What We’re Doing	MBUSA will conduct a voluntary recall. An authorized Mercedes-Benz dealer will update the communication module software on the affected vehicles.
