Description

On certain Winnebago vehicles, the adhesive application may have been done incorrectly on the hood mounting bracket(s).

The hood mounting bracket(s) adhesive could potentially fail over time, resulting in the bracket separating from the vehicle.

A detached bracket can become a road hazard, increasing the risk of a crash or injury.

Service Action

Winnebago will conduct a voluntary safety recall; however, the remedy is not currently available. Dealers will be notified through established communication methods once a remedy is available.

We sincerely apologize for this inconvenience and want to assure you we are working diligently to remedy this situation.

Notice

It is a violation of Federal Law for a dealer to sell or lease any new vehicles in dealer inventory covered by this notification until the vehicle has been repaired.

Thank you for your continued partnership!
