Subject: **BMW Temporary Delivery Stop: B-Pillar**

This afternoon, a temporary delivery stop was placed on all vehicles affected by the X1 B-Pillar recall - regardless of if the vehicle had the initial B-Pillar serial number inspection already or not.

Based on claiming procedure discrepancies of the labor ops under Defect Code 0041340200 in SIB 41 07 24 and the claims stating both B-Pillars are ok with Defect Code 0041350200 in SIB 41 06 24 (which removes the delivery stop), we have been unable to clearly identify all of the OK or Not OK vehicles.

Because of this, a temporary delivery stop has been placed on the entire X1 B-Pillar recall population. As the information is reviewed vin-by-vin, the delivery stops will be removed from OK vehicles. As delivery stops are removed from OK vehicles, our Warranty and Sales systems will update overnight and the Temporary Delivery Stop will no longer be displayed.

Thank you for your patience and understanding.

Sincerely,
Technical Service
