

New Safety Recall Advanced Communication – C3B

FCA US LLC (FCA US) has announced a safety recall on certain 2023 (GU) Alfa Romeo Stelvio vehicles.

VINs identified as being involved in this campaign are currently live and searchable. **Stop sale is in effect for the above-identified vehicles.**

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

IMPORTANT: Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$27,168 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

REASON FOR THIS SAFETY RECALL

Some of the above vehicles equipped with 255/40 R21 tires that were part of FCA US LLC recall ID - 81B (NHTSA recall ID 24V-512), may have been remedied with a tire label that has incorrect tire size designation. A driver may rely on the incorrect tire size designation when replacing tires, which can increase the risk of a crash.

The condition described above does not comply with Federal Motor Vehicle Safety Standard (FMVSS) 571.110 S4.3(d) which requires "Tire size designation, indicated by the headings "size" or "original tire size" or "original size," and "spare tire" or "spare," for the tires installed at the time of the first purchase for purposes other than resale". Subject vehicles are equipped with a tire placard label that does not correctly define the tire size designation.

SERVICE ACTION

FCA US will conduct a voluntary safety recall to apply a tire placard label with corrected information. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 4th Quarter of 2024.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
