IMPORTANT SAFETY RECALL NOTICE

NHTSA Campaign Number: 24V-891

Dear Pagani Dealer,

Pagani has decided that on certain 2024 model year Pagani Utopia vehicles there is a possibility that, due to a defect identified in the manufacturing process of the PAB (passenger airbag) panel frame, the airbag could be damaged during its deployment and affect the performance of the occupant protection system, increasing the risk of injury during a front crash event.

Out of an abundance of caution, Pagani has started to remedy all the vehicles currently on the production line and is implementing a recall to eliminate this risk on all vehicles in the field, whether or not the defect is present. A total of [REDACTED] MY 2024 Utopias are involved in the recall.

The remedy consists of the application of dry Kevlar strips on all the edges of the panel in order to avoid any contact of the carbon fiber frame with the airbag. The complete repair will take approximately 4 hours.

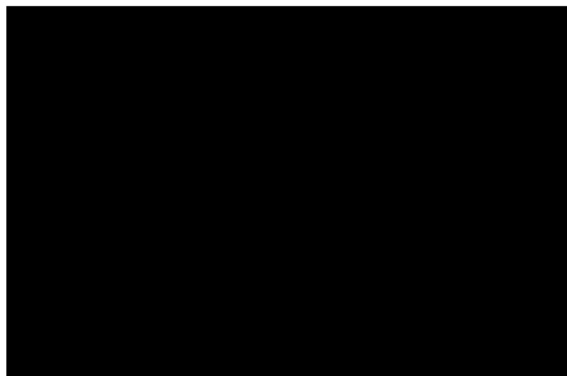

The remedy procedure will not include a replacement of the passenger airbag panel but will involve the application of Kevlar strips on the edges of the carbon fiber frame of the airbag opening in order to cover the roughness of the carbon fiber which could damage the surface of the airbag.

Pagani will repair the affected vehicles free of charge.

Owner's letters instructing them to contact their dealer for the repair are going to be sent. The earliest date on which Pagani reasonably expects that dealers will receive necessary parts and instructions is December 13th, 2024.

The affected vehicles consist of Model Year 2024 Pagani Utopia with the VIN number lower than [REDACTED]

Focusing on US vehicles, the following [REDACTED] VINs are involved:

PAGANI S.P.A.

Via dell'Artigianato,5 – San Cesario sul Panaro (MO) – Italy – T +39 059 4739201

All the Utopia listed above have been delivered to the owners; therefore, there are no unsold Utopia vehicles in dealers hands. Thus, it will be possible to deliver under a sale or lease any Pagani Utopia not listed without any further action under this recall since the incoming vehicle will have been remedied directly by the factory prior to being delivered to the dealers.

New Vehicles In Dealer Inventory: It is a violation of Federal law for a dealer to deliver a new motor vehicles covered by this notification under a sale or lease until the defect is remedied.

Pre-Owned Vehicles in Dealer Inventory: Dealers are instructed not to delivery any pre-owned vehicles in their inventory which are involved in this recall until the defect has been remedied.

All VINs included in the recall must be repaired [REDACTED]
