Subject: Recall RP1044: Polestar 2 Far Side Airbag

TO: All U.S. Service Points

NEW VEHICLES IN RETAILER INVENTORY

It is against Polestar policy for a retailer to deliver any new Polestar that is eligible for a recall. Service Points are advised to check all vehicles in inventory for recall eligibility and repair immediately. All vehicles in your new vehicle inventory must be corrected/updated before delivery.

USED VEHICLES IN INVENTORY

Polestar is ordering the stop-delivery of affected vehicles in auction and inventory until the recalled item can be repaired.

Stopping the delivery of affected used vehicles until the recall is complete is consistent with Polestar commitment to safety.

What does this mean for customers?

Customers will not be able to take delivery of affected vehicles until the recall has been completed.

When will this be resolved?

Polestar Automotive USA on behalf of Polestar Performance AB, has decided to launch Recall RP1044 on certain model year 2024 Polestar 2 vehicles.

Polestar investigations has determined that the supplier’s assembly station had incorrect software control parameters that caused the clamps on the driver side inner Far Side Airbag (FSAB) to not be crimped properly.

As a result, in the event of a crash, the driver side inner FSAB may not deploy correctly, increasing the risk of injury.

DRIVER SEAT

To remedy the concerned vehicles, Polestar will replace the inner FSAB in the driver front seat.

A total of 7 U.S. vehicles are affected by this recall.

Vehicle eligibility must be confirmed:

- Vehicle Inquiry – Warranty Vehicle Inquiry where the message "Recall RP1044 PS2 FSAB" will appear for eligible vehicles, F4=History from the main Inquiry menu must be selected to confirm Recall RP1044 has not been completed. Eligibility can also be confirmed in VIDA.
