## **New Safety Recall Advanced Communication – E0B**

FCA US LLC (FCA US) has announced a safety recall on certain 2019-2020 Model Year (GA) Alfa Romeo Giulia and 2019-2020 Model Year (GU) Alfa Romeo Stelvio vehicles.

VINs identified as being involved in this campaign are currently live and searchable.  
**Stop sale is in effect for the above-identified vehicles.**

Vehicles impacted by a stop sale are eligible for reimbursement allowance through the Recall Floorplan Reimbursement Policy (RFPRP), which can be requested upon recall claim submission.

**IMPORTANT:** Some of the involved vehicles may be in dealer new vehicle inventory. Federal law requires you to complete this recall service on these vehicles before retail delivery. Violation of this requirement by a dealer could result in a civil penalty of up to \$27,874 per vehicle. Involved vehicles can be determined by using the VIP inquiry process.

### **REASON FOR THIS SAFETY RECALL**

Some of the above vehicles may have been built with a loose input rod on the brake pedal to the actuator rod on the brake booster, which may cause the screw connection to disconnect. If the connection is loose, the driver may notice an abnormal noise or an unstable brake pedal. **If a complete separation of the piston and push rod would occur, the mechanical coupling of the brake pedal and brake booster may no longer be guaranteed, and vehicle braking would only be possible using the electronic park brake switch, increasing the risk of a crash.**

### **SERVICE ACTION**

FCA US will conduct a voluntary safety recall to inspect the push rod connection and tighten the connection, or if necessary, replace the brake booster. The remedy for this condition is not currently available. Dealers will be notified of the launch of this safety recall by way of established communication methods. This recall is estimated to launch in 1st Quarter of 2025.

We ask that you please take the time to ensure that your personnel are aware of this communication and are prepared to execute a customer friendly process for inquiries regarding involved vehicles.
