

**IMPORTANT SAFETY RECALL**  
**NHTSA RECALL NO. 24E110**  
**January 2025**

Customer  
XXXX CENTRAL AVE  
ALBANY, NY XXXXX

Dear REESE® Customer:

This notice is sent to you in accordance with the National Traffic and Motor Vehicle Safety Act.

Horizon Global Corporation (Horizon) has decided that a defect which relates to motor vehicle safety exists in certain REESE® hitch receiver locks listed below. Horizon is conducting a safety recall to address the issue. We are notifying you because retailer records indicate that you have purchased one or more of these products.

**What Products are Involved?**

This recall involves the following hitch receiver locks:

Part No.	Description
7057030	LOCK RECEIVER SS 5/8 AND 1/2
7057230	RECEIVER LOCK CHROME CLASS V
7057266	RECEIVER LOCK CHROME CLASS V
7057033	LOCK RECEIVER SS 5/8 AND 1/2
7057166	LOCK RECEIVER SS 3-1/2 SPAN
7054630	LOCK SLEEVED RECEIVER CHROME
7057130	LOCK RECEIVER SS 3-1/2 SPAN
7057280	RECEIVER LOCK CHROME CLASS V
7054680	LOCK SLEEVED RECEIVER CHROME

**What is the Problem?**

The subject parts were manufactured with a two-piece pin that utilizes a press-fit cap or a screw-on cap on the end, rather than a one-piece pin per the specification. The cap may lose its retention over time and/or under certain operating conditions. If the cap separates from the pin, the hitch may separate if the hitch lock backs out of the hole alignment between the hitch and the drawbar/ballmount. If the trailer is not using safety chains (as required by law in most states), the trailer could separate from the vehicle, increasing the risk of a vehicle crash.
