Dear «OWNER»:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act. Heartland RV (Heartland) has decided that that certain fifth wheels do not conform to Federal Motor Vehicle Safety Standard 120, Tire Selection and Rims for Motor Vehicles Other Than Passenger Cars and 49 CFR Part 567 – Certification. On the vehicles subject to this recall, the Federal Certification Label and Tire Placard may contain incorrect or missing information. We apologize for any inconvenience this action may cause you, however your safety and continued satisfaction are of the utmost importance to us.

***Reason for  
this recall***

It has been decided that certain 2023 Heartland Corterra fifth wheels subject to this recall campaign may have a tire placard on these vehicles that do not have the correct tire and rim size listed on the placard. The owner would not know the correct tire size for replacement if the need would arise. This could lead to the incorrect tire and or rim being substituted. This could lead to an increase chance of towing issues and a crash or personal injury.

***What we  
will do***

Heartland will have an authorized dealer or repair center replace the Federal Certification Label and Tire Placard. This will be corrected at no expense to you, the owner. This recall should take 10-12 minutes to complete. We have enclosed the replacement label so that it can be replaced quickly. All reimbursements will be covered by Heartlands general reimbursement plan.
